CONTENTS

Number 1

P. J. SALTER *and* J. B. WILLIAMS. The Influence of Texture on the Moisture Characteristics of Soils. I. A Critical Comparison of Techniques for Determining the Available-water Capacity and Moisture Characteristic Curve of a Soil 1

L. F. CURTIS, J. C. DOORNKAMP, *and* K. J. GREGORY. The Description of Relief in Field Studies of Soils 16

R. WEBSTER. A Catena of Soils on the Northern Rhodesia Plateau . . 31

A. J. HOLDING, D. A. FRANKLIN, *and* R. WATLING. The Microflora of Peat-Podzol Transitions 44

R. R. MAUD. Laterite and Lateritic Soil in Coastal Natal, South Africa . 60

D. J. ROSS. A Seasonal Study of Oxygen Uptake of Some Pasture Soils and Activities of Enzymes Hydrolysing Sucrose and Starch 73

D. J. ROSS. Effects of Air-dry, Refrigerated and Frozen Storage on Activities of Enzymes Hydrolysing Sucrose and Starch in Soils 86

HANS KLINGE. Podzol Soils in the Amazon Basin 95

D. S. JENKINSON. Studies on the Decomposition of Plant Material in Soil. I. Losses of Carbon from ^{14}Carbon Labelled Ryegrass Incubated with Soil in the Field 104

E. WELTE *and* A. NIEDERBUDDE. Fixation and Availability of Potassium in Loess-Derived and Alluvial Soils 116

A. J. HAYES. Studies on the Decomposition of Coniferous Leaf Litter. I. Physical and Chemical Changes 121

S. LARSEN, D. GUNARY, *and* C. D. SUTTON. The Rate of Immobilization of Applied Phosphate in Relation to Soil Properties 141

D. M. WEBLEY, (the late) R. B. DUFF, J. S. D. BACON, *and* V. C. FARMER. A Study of Polysaccharide-producing Organisms Occurring in the Root Region of Certain Pasture Grasses 149

J. P. WATSON. A Soil Catena on Granite in Southern Rhodesia. III. Clay Minerals. IV. Heavy Minerals. V. Soil Evolution 158

Number 2

A. B. STEWART. Soil in the Field and in the Laboratory 171

S. SINGH *and* G. S. BHANDARI. Studies on Humic Acids of Seven Typical Soils of Rajasthan 183

R. P. MOSS. Slope Development and Soil Morphology in a Part of South-West Nigeria 192

C. B. CRAMPTON. Vegetation, Aspect, and Time as Factors of Gleying in Podzols of South Wales 210

C. B. CRAMPTON. An Indurated Horizon in Soils of South Wales . . 230

CONTENTS. *Number* 2 (*continued*)

A. J. Hayes. Studies on the Decomposition of Coniferous Leaf Litter. II. Changes in External Features and Succession of Microfungi . . 242

D. P. Nicholas, D. Parkinson, *and* N. A. Burges. Studies of Fungi in a Podzol. II. Application of the Soil-sectioning Technique to the Study of Amounts of Fungal Mycelium in the Soil 258

J. C. Davidtz *and* M. E. Sumner. Blocked Charges on Clay Minerals in Sub-Tropical Soils 270

Sigurd Larsen. The Influence of Calcium Chloride Concentration on the Determination of Lime and Phosphate Potentials of Soil 275

J. A. Currie. Diffusion within Soil Microstructure: A Structural Parameter for Soils 279

Rachel Levy *and* E. Mor (Muravsky). Soluble and Exchangeable Cation Ratios in Some Soils of Israel 290

J. C. Burridge *and* Peter M. Ahn. A Spectrographic Survey of Representative Ghana Forest Soils 296

P. J. Salter *and* J. B. Williams. The Influence of Texture on the Moisture Characteristics of Soils. II. Available-water Capacity and Moisture Release Characteristics 310

G. R. Clarke *and* P. H. T. Beckett. The Textures of Soils in the Oxford Region 318

A. Young *and* I. Stephen. Rock Weathering and Soil Formation on High-altitude Plateaux of Malawi 322

E. A. C. Follett. The Retention of Amorphous, Colloidal 'Ferric Hydroxide' by Kaolinites 334

R. D. Green *and* G. P. Askew. Observations on the Biological Development of Macropores in Soils of Romney Marsh 342
